

# Environmental Policy

..... **Specialists in business solutions**

Midshire Business Systems Ltd. Established in 1990, now the largest independent supplier of photocopiers & duplicating equipment in the Midlands.

We recognize that our activities, products and services inevitably have an impact on the environment. Therefore, we operate an environmental management system registered to ISO14001; adherence to which is mandatory for all employees.

We are committed to continually improve our environmental impact and to protect the environment, including the prevention of pollution. We are also committed to comply with applicable legislation and fulfil our compliance obligations and other relevant commitments.

Environmental objectives will be defined that demonstrate the commitment of the company to continual improvement of the environmental management system to enhance environmental performance.

This policy is communicated to all persons working for or on behalf of the organisation; in order to actively progress associated objectives & targets for the purpose of continued improvement.

We will work to continually improve the company performance and associated management system, to meet, satisfy and delight our customers. The systems defined have my active full support. They are under continual review and improvement, however once defined are mandatory for all personnel.
